que

quod motor incorporalis movens quod est infinitum
est finitus per durationem motus quia per idem quod etiam
et etiam hic comparatur ad mobile ut ipse
superius quod non est ita de isto sed non sit
movens non movet sicut talis factio hoc
sed est infinitum quod istud vel esse quod esset
per se possibile et aliquid sic talis quod
non possunt nisi ille talis et hoc
cum non sint moventia ymo talis apud
ad eum declarandum. ¶ Quod hic sit solutio
eius dubii quod cum igitur ad hoc in primo de
qua hic loquitur sufficit quod sit in infinitum
quod motor est infinitus applicatus suo mobili
sed dico si virtus sua finita est sic hic
ergo est sit infinita. ¶ Quod hic imperfecta
solutio veniens ad finem nondum quod cor
celestia movet et alterat ita infinita
quod est infinitum et hic non est per differentiam quod
sit in actu et in potentia hic vel per hoc quod non
nec quod hic in proportione alius et alius applicatus
alterius aliquo sic non est quod corpora ce
lestia sunt infinite durationis in motu locali
de ipsa quidem sed non de alterabilitate ad alia
corrumpenda est quod motor hic non est infinitus
sed est infinite actualis durationis et tamen corpus
quod unum alium movet. ¶ Ad ultimum
corrumpendum quod ad hoc ista sufficit quod virtus
eius sit in infinitum et infinitum
applicata suo mobili ergo per differentiam quod
actu et potentia habent et manent quod est
infinitum tamen sed quod non

14 Utrum virtus finita possit per infinitum magnum
tempus esse quod sic quia sicut corpus
finitum hic corpus finitum sic celum hic corpus
finitum est quod sic quod celum est corpus quod est
aptum et per hanc virtutem a. quod tamen est in
duratione et b. hic idem quod finita est
finita duratio. ¶ Et per quod non [illegible] omnis
alia aliquis [illegible]
celum quod est magis infinitum hic quod infinita
est quamvis quod infinita movet sic modo quod
actualiter quod infinita est agit in ita infinita
et hic infinita [illegible]. ¶ Et potest
esse [illegible] sed motor celi hic proportionem
infinita ut vult apud in celo de hic
infinita [illegible] sic magis finita
in virtus infinita est per magis finita

Quod autem dicit apud in 8° huius et in 12° metaphysice
et commentator etiam quod omnis potentia in corpore est finita
sive sit activa sive passiva sive sit divisibilis ad
in me finite corporis et hoc corpus dicitur quod
sic ita hoc apud post dicitur quod in potentia est in
magnitudine finita per proportionem infinita ad quod dicitur
supponendo primo quod quod. Secundo movetur in mobili ve
locius quod proportio vero in motu et in [illegible]
ex quo sit quod tamen finita movetur in mobili
sed infinita quia vel velocitas et tardo in
quod sic in proportione ad spatium. Deinde suppono
quod omnis motus et in quo est non in instanti
sic hic est declaratum in 6° huius et in 2° celi et mundi
sit sic erit virtus infinita in magnitudine finita
est sic quod virtus infinita movetur in mobili
velocius sed virtus finita quam sit quod
est quam finita suppono et quod sit quod attingit mobile
quod virtus finita movet aliquod quod in virtus
infinita movetur per id mobile in alio quod sit
quod mobile velocius tanto quanto proportio hoc quod
ad id quod quia omnis quod finita ad aliquid
finita est proportio et non vicissim est quod
in quo id mobile finita proportio per cuius ad
spatium sed quod in quod proportio
tunc virtus et finita se compleret et in ipso
mobili velocius mobilis quod cum idem illud quod
in ipso et quod quod in eodem quod in quod in finita
mobilis tamen et virtus finita tali ad magis
ergo finita in finita et infinita equaliter quod movetur
quod velocitas concludentur vel autem sic quod virtus
infinita movetur in instanti quod in potentia
quod quod movetur sive proportione velocius quam a
finita quod non per quod non movetur in non quod
quod quod ad quod sit per proportionem sicut vel [illegible]
¶ Quod autem demonstrat sunt fortes dicitur est
est quod dicit adversarius quod non supponit ipse
primum scilicet quod tamen finita potest movere id mobile
quod movetur quod infinita dicitur non quod tamen infinita
sit quod motor movens per mobile et per non est tamen
finita quod potest per mobile ¶ 2° autem et non sequitur
supponit quia supponit quod quod tamen finita dicta
proportio, motor unitatis est quod dicitur contra adversarium
negatur quod sed motor celi ponitur finitus tamen
quod velociter intelligit ut augustinus in sic non invenit
¶ 30 Thomas sic dubitat et quod aliorum

debetur potentie [illegible] ab eo [illegible] ad aliquem
sed potentie debetur motui quod sit cum [illegible] potentie
potentie infinite in magnitudine non sit quod motus fiat
in tempore quod est contra [illegible] quod fiebat [illegible] quando
[illegible] in primo methaphysice sic dicitur ideo est imaginandum
in proposito sicut prima motoris sunt facta in magnitudine
sic sunt id quod debent esse continue quod potentia motoris
non velocius vel [illegible] vel [illegible]
quod non est potentia infinita sit in magnitudine sit extensa
quod est contra Aristotelem quia primus motor [illegible] sive potentie
consequenter sit separatus a magnitudine. ¶ Ad secundum dubium quod
ad magnitudinem potentie videtur quod [illegible] sit
diversitas motus et velocitatis ideo sit est infinita
sit in magnitudine sit extensa sed non solum diversitas
infinita sed et velocitas infinita quod non apparet. ¶ Ad
istud dicitur quod apparet quod Aristoteles hic intendit de in-
finite vigoris non solum sed et de infinite durationis
aut non valeret suppositio sua predicta quia potentia
maior movet velocius sed in hoc processu Commentator
intelligit de infinite durationis nisi diceretur
[illegible] est [illegible] processus eius continue [illegible]
[illegible] quod est quod potentia infinita non est
in magnitudine nec hic [illegible] motus est
infinita ut [illegible] processus [illegible] potentia
qui motus non est in magnitudine ideo [illegible] est
quod si a et b [illegible] [illegible] predicta
syllogismi non valent et nichil quod infinita
[illegible] vigore non est in magnitudine [illegible]
motus est infinita [illegible] duratione [illegible] quod
[illegible] in [illegible] quod non est medium ideo in aere
[illegible] ¶ Ad primum dubium dicitur quod [illegible]
potentia infinita potest movere [illegible] modo quod
potentia finita non potest movere in [illegible] modo quod potentia
finita movet [illegible] et infinita [illegible]
movere [illegible]
suppositione. ¶ Ad secundum dubium dicendum est quod licet potentie
intelligentiarum vel corporum celestium non possint [illegible]
augeri vel duplicari tamen [illegible] potentia finita [illegible]
[illegible] in [illegible]
[illegible] sibi dico [illegible] de [illegible]
et [illegible] ¶ Ad [illegible] dixisset
quod potentia sit augeri vel [illegible] non repugnat
[illegible] vel [illegible] quod est [illegible]
repugnat [illegible] quod [illegible] potentia [illegible]
[illegible] et [illegible] suppositionem
[illegible] sed non sic supponitur [illegible] destruit
¶ Ad rationes [illegible] sunt
[illegible] suppositiones [illegible] ad [illegible]
ut [illegible] solutio est [illegible] monstra

¶ Ad [illegible] dubium [illegible] quod [illegible] motus [illegible]
[illegible] ab eo [illegible] in quo [illegible]
sibi [illegible] potentie [illegible] in [illegible]
[illegible] quod motus fiet in instanti
[illegible] fiet in instanti ¶ Ad [illegible]
[illegible] quod est [illegible] potentiam [illegible]
[illegible] in magnitudine [illegible] quod potentia [illegible]
[illegible] et [illegible] et [illegible]
